COMBINING VALUE, LUXURY AND MERCEDES BENZ DRIVEABILITY. IT'S A PERFECT BLEND.

BUILT ON THE MERCEDES-BENZ 3500 SPRINTER CHASSIS, PRISM IS A FAVORITE OF CAMPER'S LOOKING FOR BOTH SHORT AND EXTENDED TRIPS. OFFERING THE DRIVEABILITY YOU DESIRE, THIS MULTI-USE TOURING VEHICLE SETS THE STANDARD FOR CONVENIENCE, ABUNDANT CAPACITIES, AND AFFORDABILITY. IDEAL FOR EXTENDED TRIPS UP THE COAST OR ACROSS THE STATE, OR SIMPLY TRANSPORTING YOUR FAVORITE SOCCER PLAYERS TO THE WEEKEND TOURNAMENT. THE PRISM IS THE PERFECT COMBINATION BETWEEN EXPERIENCE, DEPENDABILITY AND VALUE FROM THE INDUSTRY'S PREMIER CLASS C MOTORHOME MANUFACTURE WITH THE FUEL ECONOMY AND PRESTIGE OF THE MERCEDES BENZ DIESEL CHASSIS.

EXTERIOR FEATURES

Mercedes-Benz

Reliable and fuel efficient, the Mercedes-Benz® Sprinter chassis has set the standard for driveability and safety, featuring:

- Automatic 7G-Tronic Transmission
- Active Lane-Keeping Assist
- Active Break Assist
- Attention Assist
- Adaptive Cruise Control
- MBUX multimedia system w/Navigation
- Intelligent Voice Control System

• 2" Vacuum Bond Laminated Sidewalls

Thick sidewalls utilizing this bonding method will ensure a lifetime of structural integrity

• Lamilux™ 4000 Color Infused Fiberglass

Industry leading Lamilux™ thickness provides a high gloss finish for years to come

• Azdel "SuperLite" substrate with Aluminum Framing

Made in America, the Azdel is impervious to water, contains higher R-values, and is formaldehyde free

• CrossFlex Roof Membrane

The synthetic thermoplastic roof membrane provides three times more puncture resistance than the competition. Additionally, CrossFlex offers high solar reflectance and thermal emittance keeping direct sunlight from over heating your coach

• Solar Prep

Charge your coach battery with an optional roof-mounted solar panel

• Exterior Storage

Maximizing its exterior storage with up to 46 cu ft, the Prism provides abundant space for camping necessities and equipment

• Propane Capacity

With 85 lbs of LP, the Prism eliminates the need for frequent refills while traveling

• Molded Fiberglass Front Cap with Front Window

A one-piece fiberglass cap provides an aerodynamic look

• Side & Rear View Cameras

Allows you to navigate tight parking spaces, small roads and much more

• Curved Wing Walls

The Prism wing walls compliment the molded fiberglass front cap while it transitions the Mercedes-Benz chassis to the body of your coach, enhancing your look and aerodynamics

• Hydraulic Leveling Jacks (Optional)

Stabilize and level your coach automatically and quickly with the touch of a button

• Exterior Entertainment (Optional)

Enjoy your favorite movie or sporting event under your awning and in the fresh air

• Electric Stabilizer Jacks (Optional)

Stabilize your coach with ease with our interior control panel

CAB OVER BUNK SHOWN WITH LUNA GRAY DECOR

GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of the unit when fully loaded. It includes all weights, inclusive of all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance do NOT exceed the GVWR.

GCWR (Gross Combined Weight Rating) is the maximum permissible loaded weight of your motor home and any towed trailer or towed vehicle. Actual GCWR of this vehicle may be limited by the sum of the GVWR and the installed hitch receiver maximum capacity rating; see hitch rating label for detail.

GAWR (Gross Axle Weight Rating) is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

UVW (Unloaded Vehicle Weight)* is the typical weight of the unit as manufactured at the factory. It includes all weight at the unit's axle(s), including full fuel, all fluids and LP Gas. The UVW does not include cargo, fresh potable water, additional optional equipment or dealer installed accessories.

*Estimated Average based on standard build optional equipment.

CCC (Cargo Carrying Capacity)** is the amount of weight available for fresh potable water, cargo, passengers, additional optional equipment and accessories. CCC is equal to GVWR minus UVW. Available CCC should accommodate fresh potable water (8.3 lbs per gallon). Before filling the fresh water tank, empty the black and gray tanks to provide for more cargo capacity.

** Estimated average based on standard build optional equipment

Each Coachmen motorhome is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Coachmen motorhome prior to leaving our facilities.

The load capacity of your unit is designated by weight, not by volume, so you cannot necessarily use all available space when loading your unit.

Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

All information contained in this brochure is believed to be accurate at the time of publication. However, during the model year, it may be necessary to make revisions and Coachmen reserves the right to make all such changes without notice, including prices, colors, materials, equipment and specifications as well as the addition of new models and the discontinuance of models shown in this brochure. Therefore, please consult with your Coachmen dealer and confirm the existence of any materials, design or specifications that are material to your purchase decision. 5/21
